

The FAA Safety Team & Dulles FSDO presents:

# **Flight Instructor Recurrent Training for Manassas Area 141 Schools**

FAA Safety Team Flight Instructor Open Forums provide an opportunity for flight instructors, ground instructors, pilot examiners and the FAA Safety Team to meet and discuss one or more of the top ten causal factors in GA accidents. At this forum we will discuss best practices and recommendations for teaching stalls. The discussion will include when to introduce stalls in flight training, the different types of stalls, ways to demonstrate stalls and common student errors and how to correct them. Additionally, we will address specific subjects pertinent to the individual flight schools, and the advantage of the WINGS Program for CFIs. Join your flight instructor colleagues and make a difference in aviation flight training safety. This event is open only to flight school personnel from American Helicopters Inc. and Aviation Adventures. For questions, please contact Larry Smith at [lawrence.g.smith@faa.gov](mailto:lawrence.g.smith@faa.gov).

**Directions:** From Prince William Pkwy (Rt. 234), North or South, exit onto Nokesville Road (Rt. 28) North. Turn right onto Godwin Drive. Turn right immediately after the DMV onto Gateway Blvd. As you cross the railroad tracks, you will see the airport. Continue straight to go on Wakeman Drive. Follow Wakeman Drive past the terminal to the last row of hangars (on your right). You'll see the American Helicopters sign above our door.
